

FRAME&FORM ARCHITECTURAL PANELS

A Canvas for Depth. A Frame for Design.

Create immersive, high-impact environments using our **Frame&Form system** - a modular framing solution that offers a **wide range of interchangeable insert materials** with a customizable laser-cut facade built as part of the framed enclosure. These insert materials include 3D printed blocks, wrapped blocks (wallpaper, fabric, leather, vinyl, veneer, etc.), real wood, tile, acrylics, laser-cut & fabricated metal components, or other materials supplied by the customer to integrate specific design elements.

HOW IT WORKS

Frame&Form is built on the idea of **layered creativity**.

- The insert block delivers a **variety of materials, color, texture, and depth**
- The precision-cut metal frame brings in **shape, structure, and branding**.
- The panels are **delivered fully assembled for a straightforward installation** and can be scaled **up to 60" x 120"** sections to meet any designing needs.

The result is a fully customizable architectural panel system where **form and function** are equally considered, built to suit the **size and scope of any project**.

WHAT ARE THE ADVANTAGES?

- ✓ **Layered Dimensionality**
- ✓ **Integrated Branding**
- ✓ **Material Freedom**
- ✓ **Easy Replacement**
- ✓ **Made in the USA**

HOW FRAME&FORM IS MADE

1

DESIGN YOUR FRAME

- **Choose a pattern** from our CAD library
- Submit your brand logo or a custom concept.
- We'll laser-cut your design, and apply durable powder coat to the metal.

2

PICK YOUR INSERT STYLE

- **3D Printed Inserts** - Sculptural texture with custom filament color
- **Material Swaps** - Wood, acrylic, felt, or even your OWN materials
- You can combine print with embedded acoustic panels, lighting, or graphics.

3

ASSEMBLE & FINISH

- Framing & inserts are built as a **single integrated unit**
- Choose from **standard sizes or fully custom layouts**.
- Finishes can be matched to architectural pallets or brand colors

FRAME DESIGNS

- Geometric
- Abstract
- Organic
- Branded
- Client-Submitted

INSERT TEXTURES

- Smooth
- Wavy
- Faceted
- Gridded

COLOR OPTIONS

- Matte
- Metallic
- Translucent
- Multi-Tone
